

Tejasvini Katkade

Full Stack Developer

katkadetejasvini@gmail.com | +91 9321863466 | Mumbai, Maharashtra, India | LinkedIn | Github | Portfolio

EDUCATION

Bachelor of Engineering (B.E.) in Information Technology,

Indala College of Engineering

11/2022 – 05/2026 | Mumbai, Maharashtra
CGPA-8.32

SKILLS

- **Programming Languages:** Python, PHP, C, C++, JavaScript
- **Frontend Development:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend Development:** Laravel, Node.js, REST API
- **Database:** PostgreSQL, MongoDB, SQL
- **Technologies & Tools:** Git, GitHub, VS Code, Generative AI
- **Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Design Patterns

TRAINING

Python Development Training,
Heuristic Technopark

01/2025 – 04/2025

- Completed a structured training program focused on Python programming and software development fundamentals.
- Worked with various Python libraries to build small applications and understand practical development workflows.
- Collaborated with peers on development tasks and gained experience in team-based project development.

ACCOMPLISHMENTS

- Solved 100+ DSA problems on LeetCode and regularly practiced problem-solving and algorithmic thinking.
- Studied and practiced software design patterns to improve code structure and maintainability.

SUMMARY

Full Stack Developer proficient in JavaScript, React, HTML, CSS, Node.js and Python, with experience in building scalable web applications. Strong problem-solving skills with knowledge of Data Structures, Algorithms, and RESTful APIs. Passionate about creating efficient and user focused software solutions.

PROJECT EXPERIENCE

Core Developer , QuickAI SaaS AI Tool Platform
08/2025 – 05/2026

QUICKAI – AI Powered SaaS Platform

- Developed a full-stack AI-powered SaaS platform using React.js, PHP, Node.js, and PostgreSQL (Neon DB), providing users with access to multiple AI tools through a unified interface.
- Integrated **Ollama API** for text, title, and resume generation, enabling intelligent content creation and productivity features.
- Implemented **Gemini API** for AI image generation and **ClipDrop API** for image background and object removal functionalities.
- Leveraged **Cloudinary** for image storage and optimization while building responsive, scalable, and user-friendly frontend components with React.js.

Frontend Developer , Residence and Real Estate website
01/2025 – 06/2025

Residence and Real Estate website

- Built a frontend Real Estate website using React, HTML, CSS, and JavaScript to display property listings.
- Implemented responsive UI and search functionality to enhance user experience.
- Designed reusable React components for efficient and maintainable frontend development.
- Integrated dynamic property filtering and interactive user interface elements to improve property discovery and navigation.
